

Smart cities & communities

Cédric Verpeaux
Caisse des Dépôts – Investment Division – Smart city

Caisse des Dépôts?

Smart city for Caisse des Dépôts

- 1. Citizens back in the center of smart city**
- 2. Data as a common public good**
- 3. Smart city for all citizens**
- 4. Environmental excellence**
- 5. Smart city for all territories**

« Smart city » for all territories

- > « *Smart city versus stupid village?* »
- > France:
 - 35.411 cities and villages
 - 1266 communities
- > Example: smart waste
- > 90% of communities believe in digital opportunities... but
 - Acculturation
 - Internal engineering
 - Funding
 - Public procurement

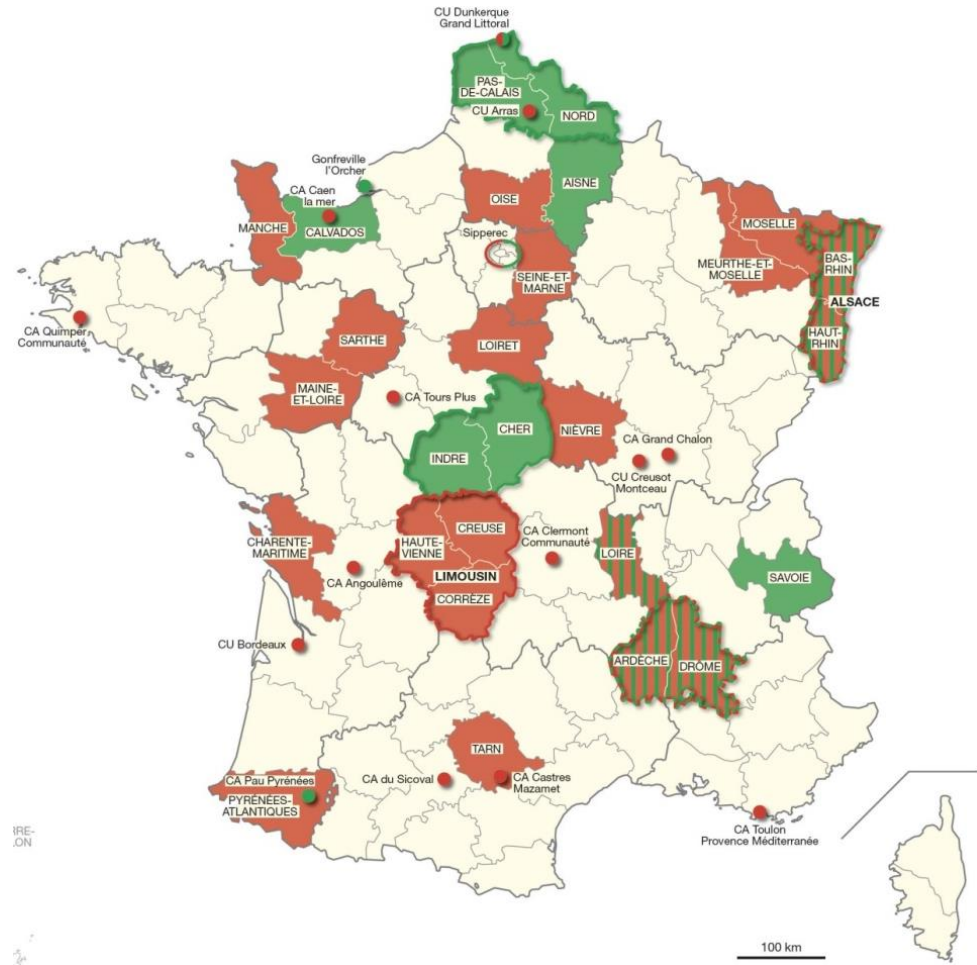

Development of very high speed networks... In all territories

> High speed networks

> Optical fiber

> 250 M€ investment in capital =
1,4 billion €

Some actions to develop smart city in all territories

- > **Acculturation:** open data tour, smart city ROI,...
- > **Packaged offers** built with startups and industrials
- > **Collaborate with public communities on different levels:**
 - Acculturation of local leaders
 - Grouped public procurement
 - Accompany internal cities teams
