

The Smart Cities klub is an original informal platform for sharing experience and collaboration between city leaders and experts in preparing strategies and programs on the road to Smart City. Smart Cities klub was inspired by more than 20 years of cooperation with cities in Slovakia and more than 10 years of cooperation with Scandinavian partners. Our mission is to change Slovak cities not only by using Smart technologies, but mostly by improving the quality of life of its inhabitants.

Happy Smart Cities

- ✓ People oriented city development
- ✓ Technology as a tool, not a goal
- ✓ Efficient and open city
- ✓ Inclusive city
- ✓ City for everybody – not only „active age“ people
- ✓ City with happy citizens

Areas of interest

- ✓ Urban development
- ✓ Safety of the cities
- ✓ Ecology
- ✓ Water management
- ✓ Kids and seniors care
- ✓ Communities and minorities projects
- ✓ Projects, that make cities happy ☺
